MAX USB POWER

USB-C (PD)
and USB-A

LIGHTED and
NON-LIGHTED

SINGLE and DUAL
CONFIGURATIONS

Lock in the fastest, most efficient USB charging. **New MAX Power Chargers deliver up to 100 watts per port.** They feature the latest USB-PD technology and intelligent device-driven voltage output. That means you'll get maximum power for each device and, in many cases, eliminate the need for AC outlets and bulky charging adapters.

Up to **100 WATTS** per port

7X MORE POWER
THAN TRADITIONAL
CHARGERS

CHRONOS®

DIGITAL CLOCKS USB CHARGERS

Replace your aging, analog clock with **the only multifunction digital clock that offers MAX Power USB charging**. CHRONOS® fits a standard 2-inch panel cutout, features external lighting control and a built-in photocell for automatic dimming.

8 MODES OF OPERATION

LOCAL TIME, UTC / ZULU TIME, FLIGHT TIMER, COUNTDOWN, STOPWATCH, VOLTS, OAT, SECONDARY AIR TEMP

USB-C (PD)
and USB-A

SIMULTANEOUSLY CHARGE
2 DEVICES AT FULL POWER

Up to **60 WATTS** per port

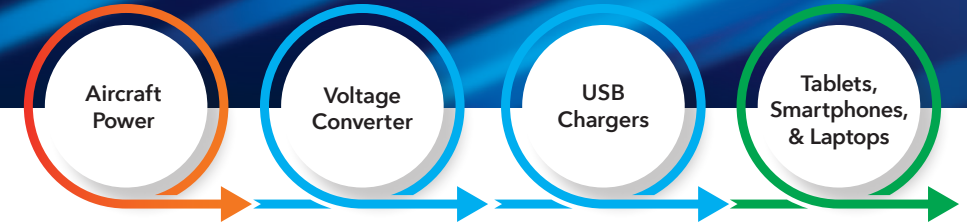

VOLTAGE CONVERTERS

DC-to-DC
AC-to-DC

ADJUSTABLE
OUTPUT

120 - 2,000
WATTS

Run cooler and save energy with highly-efficient voltage converters that are smaller and lighter than competing units. True Blue Power® AC-to-DC and DC-to-DC converters supply power to your electronic equipment, interior and exterior lighting, and cabin and cockpit accessories, including USB power.

POWER UP TO 133 USB PORTS
WITH 1 CONVERTER

Up to **2,000 WATTS** of 28-volt power

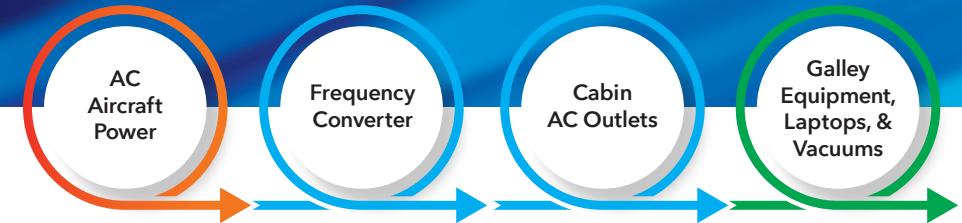

FREQUENCY CONVERTERS

WEIGHS
ONLY 19 LBS

**93%
EFFICIENT**

**EASY
TO INSTALL**

Up to **4,000 WATTS** of wall outlet power

Quiet your cabin and cut replacement costs. The TFC4000 is a drop-in replacement for the GE 717220-1. Its modern hardware design weighs only 19 pounds, giving you more useful load and the highest level of reliability.

**THE LIGHTEST & QUIETEST
FREQUENCY CONVERTER**
IN ITS POWER CLASS

INVERTERS

**SMALLER
FOOTPRINT**

**MULTIPLE
POWER OPTIONS**

**UP TO 50%
LIGHTER**

Up to **2,000 WATTS** of wall outlet power

Save energy and reduce weight. True Blue Power® DC-to-AC inverters power your instruments, avionics, personal electronics, cabin and galley equipment. These certified inverters are **drop-in replacements** for KGS and other legacy units.

3-PHASE CONFIGURATION

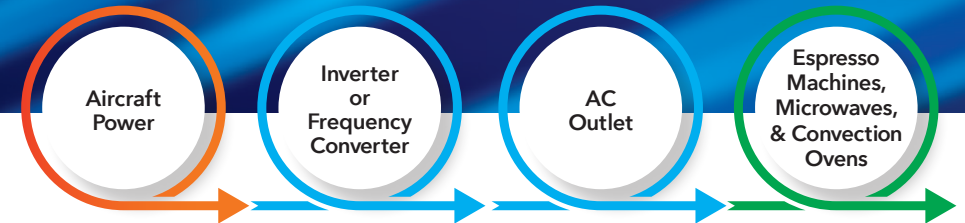

3 UNITS INTERCONNECTED
DELIVER UP TO 6,000 WATTS

OUTLET POWER

**NORTH AMERICAN
THREE-PRONG OUTLET**

**UNIVERSAL
OUTLET**

True Blue Power® AC outlets provide you with **convenient access to power**. You can easily mount the three-prong (North American) and Universal outlets in the cockpit, cabin and galley. Both outlets are rated up to 15 amps of power and are compatible with all True Blue Power inverters.

**COMPATIBLE WITH
STANDARD INVERTERS**

115 VAC and 230 VAC

Up to **15 AMPS** per outlet
